Black Hills Behavioral Health Guide 2016

“Making lives better by giving support, offering hope and creating connections all day, every day.”
ABOUT THE BLACK HILLS BEHAVIORAL HEALTH GUIDE

Welcome to the 2016 Black Hills Behavioral Health Guide. The Guide is being produced as an initiative of the Human Services Collaborative and is funded by the John T. Vucurevich Foundation. This guide was established to help the consumer more readily identify and select licensed and credentialed practitioners and agencies that provide a variety of behavioral health services in the Black Hills area. It provides the community with easily accessible information about the services that are listed.

Organizations and / or behavioral health practitioners are alphabetically listed. There are four additional ways to find a specific resource:

By Name...
Search alphabetically for the last name of the person you are seeking in the Practitioner Name Index on page 11. Listed to the right of their name you will find a page number that will direct you to the organization with which they are associated.

By Service Category...
Search by the following service categories: Abuse Issues (for children and/or adult victims and survivors), Addiction / Substance Abuse Services, Children / Adolescent Therapy, Psychological Testing, General Psychiatry and Medication Management, Older Adult Issues, Psychological Testing, Suicide Survivor Support Services and Other. The Service Category Index begins on page 5.

By City. . .
Search alphabetically in the Location Index beginning on page 9 for the name of your city or the city closest to you.

Online…
Search online at www.helplinecenter.org for information at your fingertips.

Inclusion in this Guide should in no way be construed to constitute an endorsement of a practitioner, an agency, organization, or its service, nor should exclusion be construed to constitute disapproval. The information and certifications which appear in this publication were self-reported by the organizations and practitioners.
The following list provides a brief description for the various kinds of Behavioral Health Professionals. Learn more about South Dakota licensing requirements by visiting the Licensing Boards page at dss.sd.gov for alcohol and drug professionals, counselors, psychologists, and social workers or doh.sd.gov for physicians and nurses.

Counselor - Counselors are trained in therapeutic technique and theory. They provide “talk therapy” as opposed to medication to help people with their concerns. Some counselors have extra focus on a specific topic such as marriage and family. In the behavioral health setting, counselors can be found providing therapy or case management services.

LPC - This is an abbreviation for Licensed Professional Counselor. Counselors with this licensure meet at least minimum state standards to provide counseling services to the public.

LPC-MH - This is an abbreviation for Licensed Professional Counselor - Mental Health. It is a higher level of licensure requiring more training and supervision. The LPC-MH level may be required for insurance or Medicaid reimbursement.

LMFT - Licensed Marriage and Family Therapists are master's level or doctorate level trained and licensed to provide counseling for all mental health disorders. They work with individuals, couples, and families.

Chemical Dependency Counselor - Works with people to overcome an addiction to drugs or alcohol in individual or group settings. They may also assist families of people with addictions to better understand addiction and how to help their loved one.

Psychiatrist - A psychiatrist is a physician with additional specialized training in psychiatry. In the behavioral health setting, psychiatrists prescribe medications and engage patients in therapy. Under the supervision of a physician, physician’s assistants and certified nurse practitioners can also prescribe medications.

Psychologist - Licensed psychologists complete a standardized training program at the doctoral level. Training involves understanding the development of personality, learning, and interpersonal relationships. Using tests to evaluate individuals is usually a major emphasis, but they also conduct individual, family and group therapy.

School Psychologist - Works in the school setting to help individual students resolve learning and behavioral challenges that are affecting academic performance and to help teachers improve the learning process. School psychologists are trained in both psychology and education.

Social Worker - Social workers are trained to complete a variety of tasks and are found in many areas outside of behavioral health services. In the behavioral health setting, social workers might provide talk therapy, case management, or connect people to resources.

SWA - This is an abbreviation for the licensure title of Social Work Associate. Social workers with this credential have met minimum state standards to practice social work.

SW - This is an abbreviation for the licensure title of Licensed Social Worker. Some social workers indicate this licensure as LSW to match the paper license they received when they became licensed. Social workers with this licensure most likely completed a bachelor’s of social work (BSW) degree.

CSW - This is an abbreviation for the licensure title of Clinical Social Worker. Social workers with this licensure have completed a master’s of social work (MSW) or a doctorate of social work (DSW) degree.

CSW-PIP - This is an abbreviation for Clinical Social Worker - Practitioner in Private Practice. It is a higher level of licensure requiring more training and supervision. The CSW-PIP license may be required to bill certain insurance providers.
Choosing among the many options available in behavioral health care can be a confusing task. As with any type of service there are basic questions that can assist you in becoming an informed consumer. Ask yourself these questions:

- What are the critical issues for which you would like to obtain help and what are the desired results you hope to see?
- Do you have a preference regarding type of setting (i.e. inpatient, outpatient, group therapy, etc.) or type of therapeutic approach?
- Is there a particular time of the day or week that would be best for you to arrange an appointment?
- Is there coverage offered by your insurance, health care plan, or employer that can offset some or all of the cost of treatment?

With this information in mind, select two or three behavioral health practitioners and call for a short phone interview. Briefly describe your issues or goals and ask if the provider is skilled in these areas. Ask a few questions about the provider’s background and practices.

- What therapeutic approaches and techniques does she or he most frequently use?
- How will therapeutic goals be established?
- How will you know when therapy is complete?

After talking with a potential practitioner, ask yourself:

- Did you feel a sense of confidence in this person?
- Did the practitioner’s approach seem to make sense to you?

---

**Glossary of Abbreviations - Degrees**

This is a key to abbreviations used throughout this guide, primarily for professional accreditations and certifications.

- **AA** 
  Associate Degree
- **AS** 
  Associate of Science
- **BA** 
  Bachelor of Arts
- **BS** 
  Bachelor of Science
- **BSW** 
  Bachelor of Social Work
- **DMin** 
  Doctor of Ministry
- **DO** 
  Doctor of Osteopathy
- **EdD** 
  Doctor of Education
- **EdS** 
  Education Specialist
- **MA** 
  Master of Arts
- **MAT** 
  Master of Arts in Teaching
- **MD** 
  Doctor of Medicine
- **MDiv** 
  Masters in Divinity
- **MEd** 
  Master of Education
- **MFS** 
  Master of Forensic Sciences
- **MS** 
  Master of Science
- **MSEd** 
  Master of Science in Education
- **MSSA** 
  Master of Science in Social Administration
- **MSW** 
  Master of Social Work
- **PhD** 
  Doctor of Philosophy
- **PsyD** 
  Doctor of Psychology
- **RD** 
  Registered Dietitian
- **RN** 
  Registered Nurse

Suicide Prevention Helpline
529 Kansas City Street, Suite 200
Rapid City, SD 57701
Phone: (800) 273-8255 or 2-1-1 or (605) 339-4357
Website: www.helplinecenter.org
Hours: 24 hours a day, 7 days a week
Services Offered: Direct crisis intervention services through the National Suicide Prevention Lifeline (800) 273-TALK for the state of South Dakota. The crisis line is staffed 24 hours a day / 7 days a week by trained professionals. The Suicide Prevention Helpline also provides support services to survivors of suicide (persons who have lost a loved one to suicide) through the crisis line. The Suicide Prevention Helpline is accredited by the American Association of Suicidology.
Behavioral Health Professional:
Janet Kittams-Lalley, MA, LPC
Making lives better by giving support, offering hope and creating connections all day every day.
